Directors Message

It is no surprise that Directions Medical Clinic has arrived at an impasse. In many ways the impasse has created opportunity for growth, creativity, and reflection. Our donors have truly embraced our impasse with increased support, fostered collaboration and nurtured resilience.

As we reflect on the impact of our collective efforts over the past quarter, I am continuously inspired by the unwavering support we receive from our donors. Our God is almighty, providing all we need through your support and generosity. Thank you for your dedication to Gods word & the sanctity of life. Together we continue to provide compassionate care to those facing unplanned pregnancy.

Jax Fernandez
Executive Director

Impact & Statistics

Your dollars enable Directions Medical Clinic to provide essential services to women including pregnancy testing, ultrasounds, counseling, education, and post-abortion support. Our statistics show your impact on the sanctity of **LIFE.**

Q1 2024:

Pregnancy Tests Completed	64
Educational Sessions	158
Boutique Items Distributed	3,726
Ultrasounds Performed	43
Undecided to Life Minded	5 out of 9

Of the 2 abortion minded clients we served in Q1, 2 mothers chose life for their babies.

Board of Directors, President - Tim Mustin

It is with great enthusiasm that we introduce Tim Mustin as the newly appointed President of the Board of Directors.

As President, Tim plays a crucial role in guiding vision, communication and governance to the Board of Directors & Executive Director.

With a distinguished background in leadership, community, and faith Tims' deep commitment to the ministry brings a visionary perspective to his new role. Together, we look forward to supporting impactful decisions for the sanctity of LIFE.

Growth & Development

Client Services Programs: Did you know vulnerability is one of the most common reasons unplanned pregnancies often lead to abortion? While we look at the sobering statistics; 50% of all pregnancies are unplanned & 1 in 3 will end in abortion, the opportunity to decrease abortion vulnerability has never been higher. Directions is re-focused on increasing education on Abstinence, Healthy Relationships, Male Mentor Support & Parenting Education. This increased effort aims to empower individuals to choose alternatives to abortion and reduce overall unplanned pregnancy. California is currently listed as having the highest abortion rates in the nation.

The time for change is now. Visit www.dmcforwomen.org to learn how you can support these vital programs.

Memorial Garden: Directions Medical Clinics has partnered with Faith Community Church to support the long-awaited Memorial Garden for the still & unborn. This garden will be located on the serene grounds at Faith Community along the peaceful banks of the Mokelumne River. Our faithful donors have made this place of healing possible for those who have experienced miscarriage, stillborn or termination of pregnancy.

Events & Fundraisers

Your donations to the Walk for Life will be accepted through May 2024

Our non-profit partner for the month of April is **Directions Medical Clinic**. They are doing amazing work in our community. For more info please grab a pamphlet or scan the QR Code.
